ADDENDUM TO AMENDED AND RESTATED FORM TA-2 OF WILMINGTON TRUST COMPANY FOR REPORTING PERIOD ENDING DECEMBER 31, 2003

FILE NO. 85-59

Note A: This figure reflects a change in calculating the total number of security holders for reporting purposes. For an issue involving a series of securities, the calculation includes as one holder an individual holder that holds positions in one or more of the series rather than counting each individual holder of each series as a separate holder. Under the methodology used in the prior year (*i.e.*, the calculation included each individual holder of each series as a separate holder), the number of security holders at December 31, 2003 would have been reported as 14,390.

Note B: These figures represent: (i) entries associated with processing of payments to third parties, such as guarantors and other credit enhancement providers, that were not removed from the master security holder files prior to December 31, 2003 and resulted in the outstanding principal balances of 62 issues being overstated on Wilmington Trust's master security holder files; and (ii) outstanding principal balances with respect to three issues that were not removed from the master security holder files prior to December 31, 2003 even though all required payments to security holders had been made, which resulted in the outstanding principal balances of these three issues being overstated on Wilmington Trust's master security holder files. Other similar entries were removed from Wilmington Trust's master security holder files prior to December 31, 2003. None of these record differences reflect any actual payment error or any financial loss to any issuers or security holders or to Wilmington Trust, and as of the date of this filing, all such aged record differences have been corrected.
